

NOW AVAILABLE

COMET PUBLIC VIRTUAL TRAINING DATES

Incident investigation & root cause analysis training.

It's a proven incident investigation, root cause analysis and prevention methodology

The **COMET process** is unique. It recognises that emphasis on the 'Discover' phase of event investigation generates high quality input data and gives you a solid foundation for making sound decisions for future prevention.

It's digitally-based virtual training

As a delegate, you will have access to our **digital classroom** used for COMET practitioner training.

This platform ensures an engaging and enjoyable experience for those attending.

It's a first for HF analysis

COMET is the first available investigation and root cause analysis methodology to include **human factor (HF) analysis**.

When an element of human error directly contributes to an incident / performance loss, COMET's HF tool helps you to identify the first failure stage, what Performing Influencing Factors (PIFs) contributed to the error and ultimately identify the most appropriate preventive actions.

It's a secure web app

COMET Root App brings a digital dimension to your incident investigations and root cause analysis. Using the COMET methodology, the web app allows you to capture, track and measure all aspects of an incident investigation online.

What you need to know

For individuals who perform incident investigation and root cause analysis on behalf of their organisation or as a consultant.

Requiring only a laptop and wifi connection, participate in this virtual training programme from **anywhere in the world**.

The COMET Practitioner programme is delivered via 4 x 2.5 hour online tutor led sessions and some light 'self study' across 7 working days, allowing flexibility and efficiency for delegates (*normally a 3 day classroom course*).

Dates: Starting 10th August 2020

Method: Adobe Connect Virtual Classroom

Cost: A\$1750+GST / delegate*

**includes 10 week free access to COMET RootApp followed by a free consultation with a PSG representative*

For more information or to book your session contact the PSG team:
